## **Building a Landscape** One day workshop

Create a landscape with layers of texture, color and pattern using a brush, palette knife and “found” tools.

## **Exploring Complementary Colors** One day workshop

Using a simple palette of three colors plus black and white, we'll create a painting or two using a complementary color scheme. The paintings above are the same design but each is painted with a different complementary color scheme.

### **Intro to Acrylics**

**Four evenings; three hours each evening**

We'll start with a basic application of paint to surface, then we'll start adding a variety of techniques and mediums to the surface to create a layered, textured piece.

### **Monoprinting**

**One day workshop**

Using a 6" x 6" Gelli plate, we'll build layers of color to create one of a kind prints on paper. We apply the paint to the Gelli plate, then press the paper to the plate creating unique textures and patterns. Material fee for this class is \$15 per person which includes use of the plate, use of the paint and all the paper you'll need.

### **Collage with Acrylic Skins**

**Two day workshop**

Brush paint onto a non-stick surface. Let it dry overnight. Lift off the surface and cut into shapes to create a textured patterned surface.

### **Image Transfer Collage**

**Two day workshop**

Use paint textures and a photocopied image to create a design.
